## **TEACHING RESPONSIBILITIES/ASSIGNMENTS**

### **Education Administration**

- 2024 - Present As the Phase II Clinical Content Lead for the University of Utah School of Medicine Longitudinal Integrated Clerkship Program, it is my job to develop the learning content for the team-based learning for second year medical students. Additionally, I am responsible for working with local departmental administration to ensure smooth immersion assignments and educational experiences, assist in preceptor recruitment, promote faculty development, and aid the assessment team in the Observed Structured Clinical Examination.
- 2024 - Present As program founder and director of the Forensic Psychiatry Fellowship at the University of Utah, I have directed and overseen all fellowship activities. My responsibilities have included securing annual funding through state grant totaling \$550,000 ongoing annually, meetings with and submission of all requested information to ACGME which was approved for two fellows next year beginning July, 1, 2025. Additional tasks have included frequent meetings with state senators and partners, as well as the Utah State Hospital and federal and county legal groups to secure clinical rotational sites and program letters of agreement. I have also constructed a psychological testing and didactic curriculum consisting of 15 testing seminars, 67 lectures, and 27 landmark case seminars, of which I will be providing 24 didactics and 8 landmark case seminars. Other administrative duties performed by me include partnering with affiliated legal counsel for biannual mock trials, coordinating recruitment, financial allocation determination, and other administrative tasks deemed necessary by ACGME, the Department of Psychiatry, and state partners. Program director duties have been maintained without an assistant program director or other core faculty support, with input and assistance from adjunct faculty when possible.
