PROFESSIONAL EXPERIENCE

Private Practice (3/93 to present).

Private practice specializing in the forensic and clinical neuropsychological and psychological assessment of children, adolescents and adults. Scope of practice includes cases involving post-traumatic stress and other psychiatric disorders, head injuries, memory disorders, attention disorders, autistic spectrum and other developmental disorders, learning disorders, genetic disorders affecting neurocognitive functioning, hematology/oncology, seizure disorders and other neurological disorders. Conducted IME's, consulted and served as an Expert Witness in approximately 100 cases.

Recent forensic cases have included serving as a consultant and expert witness on a variety of individual and multi-plaintiff civil and criminal cases for both plaintiff and defense attorneys. These have included personal injury cases with allegations of sexual abuse with resultant emotional damages, a liability case for the SF US Attorney's Office involving a motor vehicle accident with claims of a head injury causing significantly decreased cognitive, memory, occupational and social functioning; a criminal case involving claims of mitigating psychiatric and learning disorders; a criminal tax evasion case involving claims of a mitigating personality disorder; multiple personal injury cases involving claims of PTSD and/or head injuries; a civil case against the California Board

of Education and a CA school district involving alleged violation of educational rights, as well as multiple cases involving various aspects of employment law, as well as Fitness for Duty exams.

Permanente Medical Center, San Francisco (3/95 -12/99).

Served as the primary pediatric neuropsychologist for the Northern California Region. Duties included pediatric neuropsychological and psychological assessment, individual, group and couple psychotherapy, crisis intervention and the training of pre- and post-doctoral interns.

Practicum Coordinator; Pacific Graduate School of Psychology (5/94 – 5/95).

Faculty member responsible for managing the field practicum program for doctoral students in clinical psychology. Position included classroom teaching and clinical supervision.

Children’s Hospital Oakland (5/93 – 5/94).

Staff psychologist providing assessment, treatment planning and consultation services for children and adolescents with a wide variety of complex medical and emotional disorders, as well as the training and supervision of pre- and post-doctoral interns.

VA Medical Centers at San Francisco & Livermore (12/91 – 5/93).

Staff psychologist offering a range of mental health services including the development of a pilot clinic designed to treat patients with chemical dependency and a second concurrent psychiatric diagnosis. Duties also included the training of staff and pre-doctoral interns.
